The Global Health Initiative and Project CURE have teamed up to help bring medical supplies to the clinics and rural areas where you will be serving while on your rotation.

Please see the attached overview and list of supplies that are available. All that is required is that you bring an additional suitcase filled with these supplies when you embark on your GHI trip. The GHI will cover the cost, which is $250 for approximately $2,000 worth of needed medical supplies. This can make a very large difference to the communities you will be serving.

If you are interested, please contact Kathryn Swary, Director of Donor Relations, at the Global Health Initiative at Chicago Lake Shore Medical Associates

Thank you for considering this new opportunity!
C.U.R.E. Kits contain 48 lbs. of pre-packaged medical supplies, valued at $2,000, that can be easily transported and checked as luggage on your next trip to an underserved region of the world. Average contents include exam supplies, wound care, personal hygiene items, consumables, and skin solutions—critical supplies that are desperately lacking in most clinics in developing countries but can provide much needed medical relief.

If you are traveling to an underserved region of the world, request a C.U.R.E. Kit at projectcure.org/cure-kits with a donation of $200.

PROJECT C.U.R.E. is a nonprofit humanitarian relief organization that delivers donated medical supplies and equipment to underserved hospitals and clinics in developing countries. Since our founding in 1987, PROJECT C.U.R.E. has delivered nearly $500 million worth of medical relief to people in need in more than 130 countries worldwide.

With the [C.U.R.E. Kit] medical supplies provided by PROJECT C.U.R.E., and an augmentation from the military medical supplies, we treated 280 orphan girls and widows. This was the first time that they had seen a western doctor and received any type of treatment.

--- Col. Patrick Allen

Why Should I Participate?

- **10:1 ROI:** For $200, you can deliver $2,000 worth of donated medical supplies to a clinic or doctor in an underserved community in the developing world.
- **Pre-Packaged:** Each C.U.R.E. Kit is pre-packaged and ready for you to check as luggage on your next trip.
- **Impact:** Each Kit is estimated to impact at least 300 lives.

What’s in a C.U.R.E. Kit?

- C.U.R.E. Kit contents vary depending on inventory but typically include exam supplies, wound care, personal hygiene items, consumables, and skin solutions among valuable items.

How do I obtain a C.U.R.E. Kit?

- Requests a C.U.R.E. Kit online at: [http://www.projectcure.org/cure-kits](http://www.projectcure.org/cure-kits)
