

INSTITUTE FOR GLOBAL HEALTH STRATEGIC PLAN

Mission

We work to expand knowledge, capacity, and equity in global health through transdisciplinary research and education partnerships.

Priorities

Institute and Center Resources

Research

Education

Partnerships

Goals

1.1. Meet fundraising goals to be able to support Institute and Center activities

2.1. Develop and pursue new, transdisciplinary, high-impact funded global health research projects and programs

3.1. Through all the Centers, but particularly the Center for Global Health Education, foster an educational and research environment that values global health equity

4.1. Enhance collaborations across the Feinberg School of Medicine and the larger University community

1.2. Provide for the infrastructural needs of the Center directors

2.2. Strengthen dissemination of research outcomes

3.2. Prepare learners to work and thrive in diverse global health settings

4.2. Strengthen and expand relationships with regional, national, and international global health entities

1.3. Promote the IGH and its Centers within Northwestern and worldwide

2.3. Support ongoing research programs and projects

3.3. Educate learners in ethical reasoning and practice of global health practice, research, and training

4.3. Enhance global collaborations and relationships.
